

# LEAP

Advising Session for Course  
Prefencing

*Learn, Engage, And Prepare*

Create a list of 12 courses you might like to take for Fall 2024. This list will guide us in creating your Fall schedule.

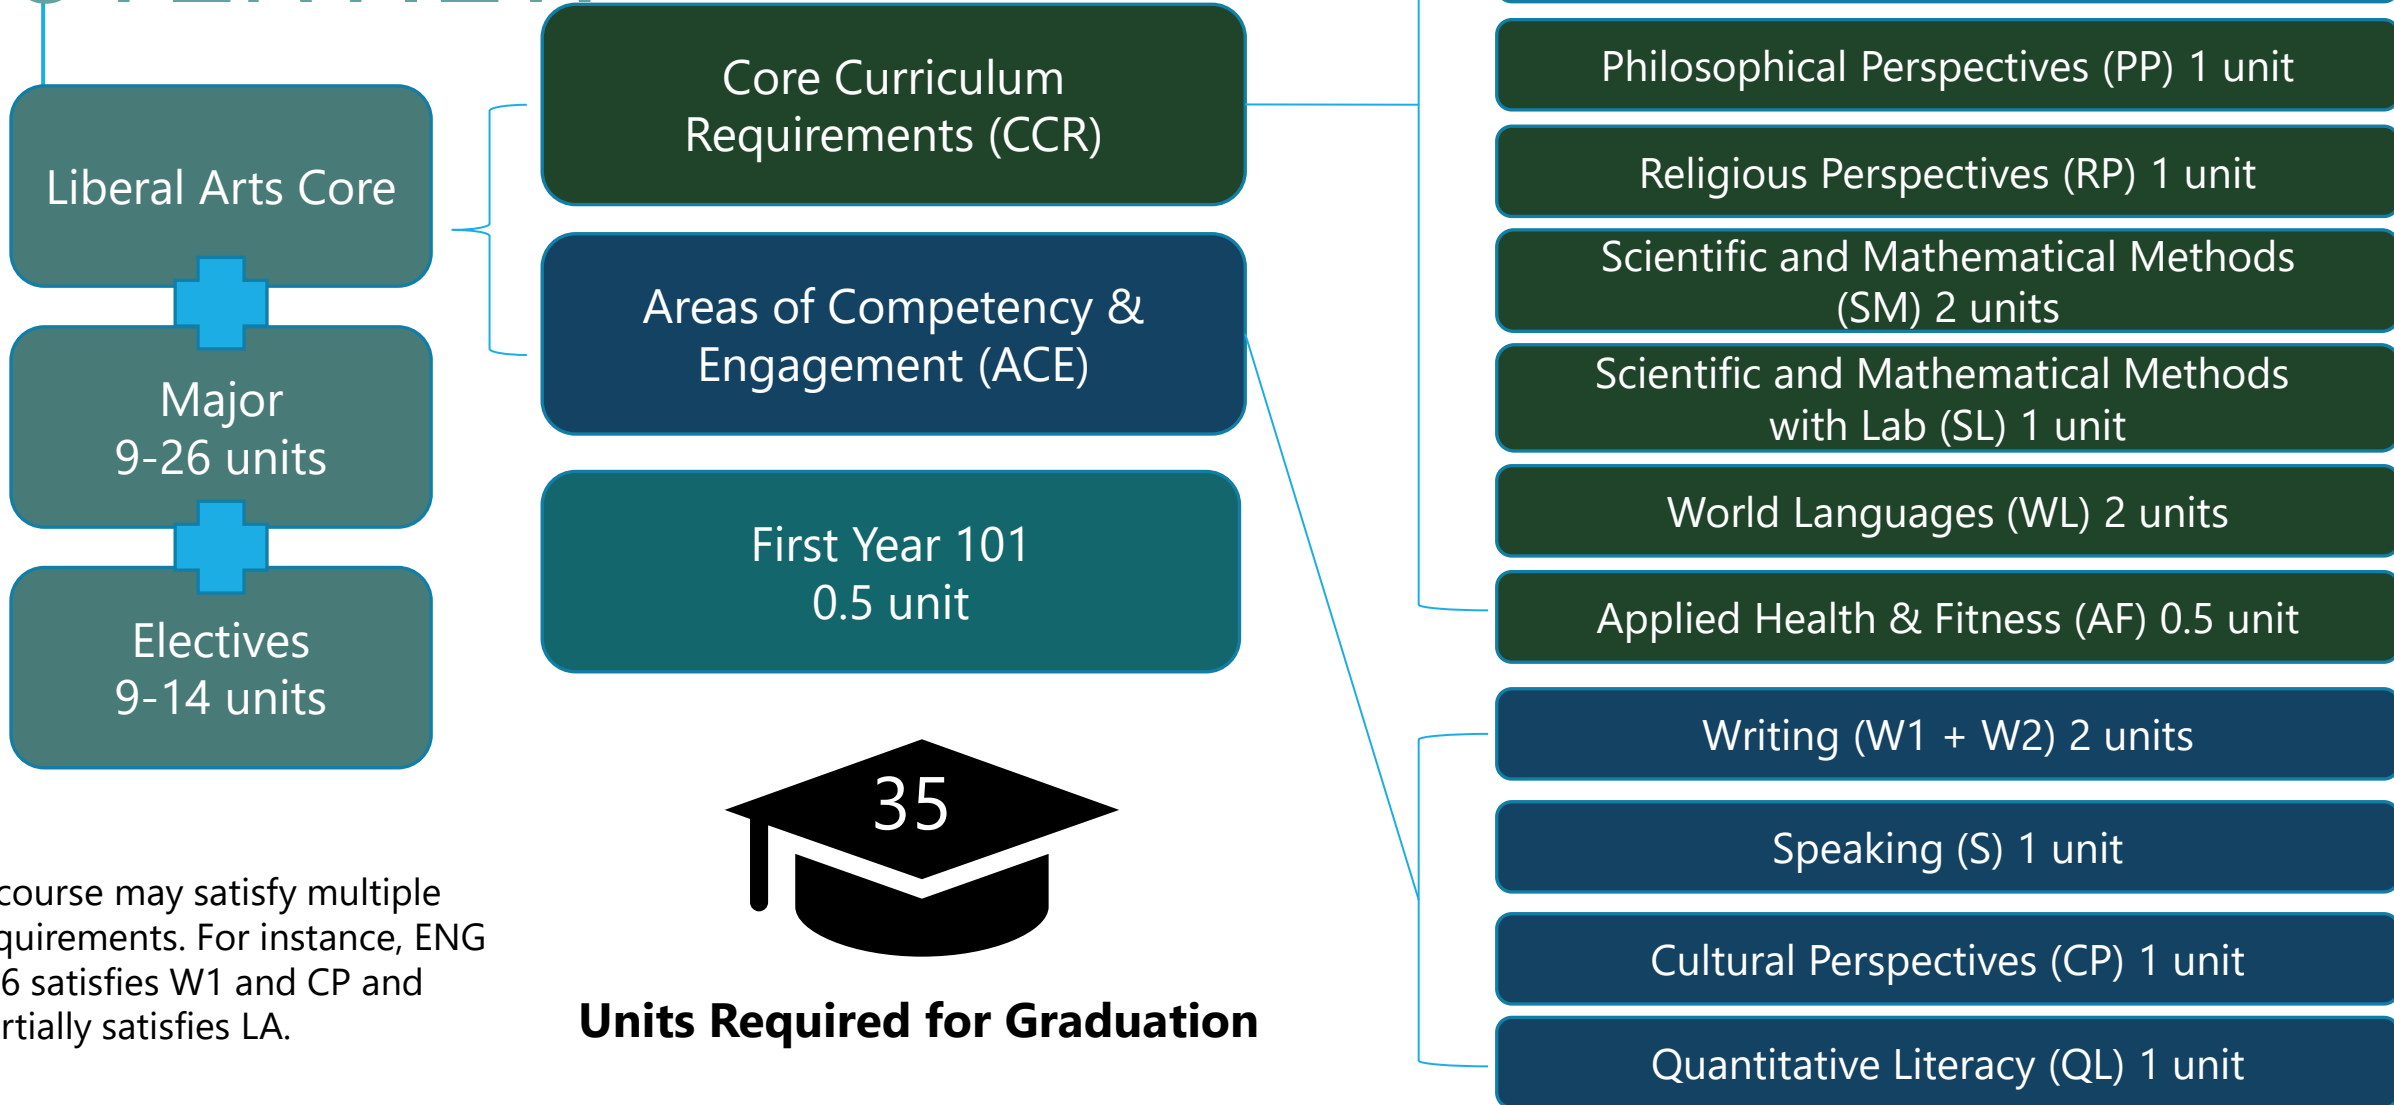

## OBJECTIVES FOR THIS SESSION

# HOW TO START:

- Use our **Core Curriculum Overview** document as a guide for helping you put together your course preferences.
- In your **Course Preference List** try to include three to four classes that would allow you to explore subjects you are considering for a **potential major** or are other areas of interest.
- Some majors have courses you should take in your first semester. If you are thinking about **Engineering, any health sciences, or education**, discuss this in your chat session with faculty.
- If you took **AP or Dual Credit** courses in high school, do not preference those now. We will advise you about processes for transfer credit.

# CURRICULUM OVERVIEW

# PLACEMENT EXAMS

For Math and Language

Designed to place you in the class that is the best match for your current abilities

Must take within ONE WEEK of your LEAP date

<https://placementexam.hanover.edu/>

# TAKE THE LANGUAGE PLACEMENT EXAM

All students must take a two-course sequence in one language (WL; World Languages CCR)

## **Did you take French, German, Latin or Spanish in high school?**

If your answer is yes, you must take the placement exam for that language.

Students who did not take a language in high school will not take a placement exam.

- You will have a choice to either continue your high school language, or start with a new language.
- We strongly encourage you to complete your language in your first-year.
- Students with 3+ years of a high school language must begin their language sequence at 116 or above.
- ***We cannot enroll you in your high school language if you do not take the placement exam for that language***
- You can select a language course on your preference list. We will place you into the level you need.

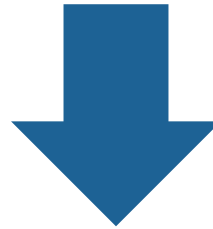

# DO I HAVE TO TAKE THE MATH PLACEMENT EXAM?

## **If you are considering a major in:**

Biochemistry  
Biology  
Chemistry  
Computer Science  
Economics  
Engineering  
Geology  
Kinesiology and Integrative Physiology  
Mathematics  
Physics/Astronomy

## **Or preferencing:**

MAT 113: Essential Precalculus  
MAT 121-122: Calculus  
PHY 161: General Physics I  
PHY 162: Introductory Mechanics

Preference your intended math course AND take the Math placement exam

# CLASS MEETING TIMES

Classes meet either  
Monday/Wednesday/Friday  
OR Tuesday/Thursday for  
3.5 hours per week

Some classes also include a  
lab which meets one day a  
week for two or three hours

# HOW TO READ COURSE LISTINGS

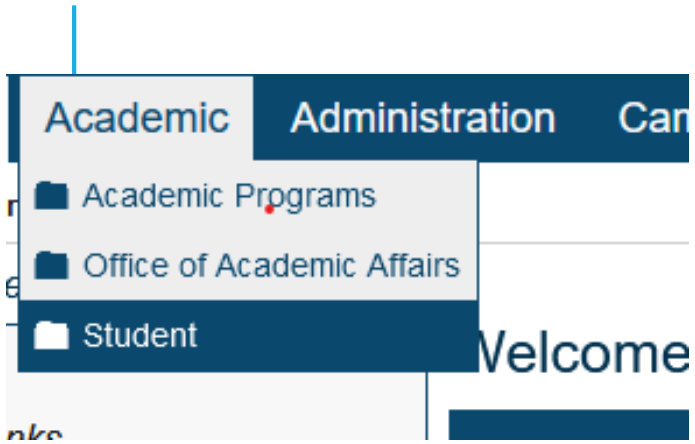

**PLS:** Subject Area:  
*PLS=Political Science*

**161:** Course Number: can be  
referenced in the College  
Catalog. *161: Democracy*

**A:** Section of the Course –  
A,B,C, etc.

PLS 161 A	Democracy
PLS 161 B	Democracy
PLS 162 A	Modern Politics: Power and Ideas

Tap on the Course Preference Link

# PREFERENCE SPECIFICS

- All first-year students will be enrolled in a **FY 101** course. You do NOT need to include this in your 12
- For 1-7, use the drop-down list to select a preference in each curriculum category
- For 8-12, list any other courses you may be interested in
- Do NOT list the same course number multiple times. If the section you preference is not available, we will attempt to move you to another section of that course

## 1st Year Course Preference

\* Required
